

PREPARING FOR A POWER OUTAGE

What should you be doing?

Loss of power may last hours or days

May disrupt communications, water, transportation

May close retail businesses, grocery stores, gas stations, ATMs, banks, and other services

Can cause food spoilage, water contamination

Can prevent use of medical devices

BEFORE

Check with the Community Warning System for updates and Register for alerts from COCOCWS.US

Update your contact information with PG&E pge.com/wildfiresafety

Take an inventory of the items you use that rely on electricity

Plan for your family and pet medical needs

Keep mobile phones charged

Store water and non-perishable food

Install home carbon monoxide detectors with battery backups

Know how to use the manual release on your garage door

Keep gas tanks full

Talk to your family and neighbors and share your plan

DURING

Keep freezers and refrigerators closed

Monitor freezer and refrigerator temperatures with a thermometer

Use perishable food supplies first

Use generators, stoves and grills outdoors away from windows

Disconnect appliances and electronics to avoid damage

Check on neighbors, animals and family

AFTER

When in doubt, throw it out! Throw away food exposed to temperatures above 39 degrees for more than two hours

Check with your pharmacist about refrigerated medications

Emergency kit suggestions

You know best what you will need

- Neighborhood map with local resources
- Battery-powered or hand crank NOAA Weather Radio
- Portable generator
