Free Class

What is CERT and

**Why should I join? Because:
 "What if could be come what
 now!"**

Ask yourself...

- Are you ready for a disaster?
- Can your neighborhood be self-sufficient for at least three days after a disaster?
- Who will help the injured and rescue trapped victims in your neighborhood if rescuers are not available?

After an earthquake or other major disaster, the immediate response of emergency personnel in one's neighborhood may not be possible for several days.

The CERT program has been developed to train resident volunteers to provide neighborhood assistance until emergency agencies can respond. CERT (which stands for Community Emergency Response Team), is based on a series of training sessions where volunteers are exposed to the basics of fire safety, search & rescue, disaster medical training, utility control and more. Organize your home, your neighborhood, church, job, or organization.

We can help.. So can you.
